Mitchell Attacked.

A dispatch from Tananquas, Pa., says that sensational charges are being made by William Mitchell, president of the seventh district of the United Mine Workers, who, it is said, is being forced out of the organization because of his socialistic tendencies.

In a newspaper that is admitted to be Mitchell's mouthpiece it is stated that it was John Mitchell who first drew the miners' union into politics; that Mitchell has for a long time been hobnobbing with the operators, and that he is now trying to line the organization up to support President Roosevelt for a third term. In the article, it is also charged that Mitchell wears a \$500 diamond ring that was presented to him by the operators. The article then concludes as follows:

"There is every reason to warrant the assertion that the miners' union will, within six months, be a thing of the past, but between now and then some of the inner workings of the organization will be exposed, backed up by positive proof, and then the miners will be able to judge for themselves who is responsible for the decay of the organization."

Postmaster Robbed.

G. W. Fout, Postmaster at Riverport, Ia., nearly lost his life and was robbed of all contents, according to his letter, which says: "For 20 years I have been a postmaster, which led to such a severe case of jaundice that even my finger nails turned yellow; when my doctor prescribed Electric Bitters, which cured me and have kept me well for eleven years." Sure cure for Biliousness, Neuralgia, weakness and all Stomach, Liver, Kidney and Bladder derangements. A wonderful Tonic. At E. S. Leadbeater & Sons' drug store. 50 cents.

Meteor Just Missed Two Houses.

The families of George Krauson and Margaret Diebold, living in adjoining houses at Marion, Ohio, were startled Thursday night by a dazzling light, followed by a concussion that shook their houses and a hissing as of steam escaping from a safety valve. Investigation showed that a meteor had fallen between the houses, burying itself deep in the ground, and the steam was caused by the hot mass coming in contact with the damp earth. From the size of the hole it is judged that the meteor must have been a foot or more in diameter.
